

Kashmere High School & the Conrad O. Johnson School of Music and Fine Arts

CAREER AND TECHNICAL EDUCATION DEPARTMENT

Cosmetology “Discover Hair as an Art Form”

Kashmere High School opened a new Cosmetology Program in August 2008 which features some of the best and brightest up coming stylist and entrepreneurs that the city will have to offer. The program is committed to the success of our students, focusing on the knowledge and application of the principles and practices of the treatment of hair, skin and nails. The Courses are offered to students in grades 10-12. At Kashmere High School our Cosmetology program will prepare students with opportunities to reinforce, apply and transform their skills in the modern workplace.

Karen S. Williams, Teacher

Personal and Family Development classes are off to a great start, the students are excited and in the planning stage's of the upcoming Annual Holiday Dinner. The **Textile and Apparel** students are working very hard at mastering the mechanics of the sewing machine. While each student is looking forward to completion of their first project they are also making plans for the Second Annual **Spring Fashion Show**. The **Apparel** class will participate in a Fashion Design competition to be held on the campus of the University of Houston and a field trip to the Art Institution of Houston. *MA. Williams, Teacher*

Making Houston Money Smart.

K
H
S

Some of Kashmere's **BCIS** students attended the "100 Teens...Making Houston Money Smart" day at the Houston Federal Bank Building on November 4, 2008. Students were afforded an opportunity to see and experience this 21st Century Banking process in action, **money** and **gold bars**! This seminar focused on spending and investing for their future.

Cynthia Gatewood, Teacher

Innovative Technologies to Improve Students and Learning

Teaching is effective when you are:
Supporting diverse learners needs, Creating positive teacher/ student relationships, Allowing teachers to see and appreciate students' strengths rather than their deficits, and Expanding students' appreciation and understanding of other people and cultures both in class and globally. *Roderick Austin, Teacher*

The **CTE Teachers** work collaboratively with the **Core Teachers** on various projects and activities, to achieve great results because failure is not an option in Ram land.

Technology Education

Students are gaining knowledge and skills in the application, design, production, and assessment of products, services, and systems with a variety of interesting and relevant activities, through Autodesk Inventor, Technical & Architectural Drafting, Construction and Robotics which will prepare them for success in the world of works.

Patsy Morehead-Potts, Teacher
